LAUREN CARNE

Software Engineer

Mobile UI engineer with 4 years **React Native** experience, looking for roles in mobile and web development. A continuous learner with drive and self motivation to pick up new languages and frameworks.

ENGINEERING EXPERIENCE

2019 - 2023   **Picnic**   Software Engineer

- First full-time engineer, working with the founders on the design and prototype of two new mobile apps, leveraging **Figma** and **React Native**.
- Implemented designs on both **iOS** and **Android** finding solutions to the differences that arise with cross platform development.
- Implemented and maintained updates to the design system.
- Used **React Native Gesture Handler**, **Reanimated** and **Moti** to implement complex UI animations and interactions.
- Worked cohesively as part of a team actively participating in daily stand ups.
- Utilised **Typescript,** leveraging its type safety and enhanced tooling to deliver high-quality maintainable code.
- Progressed from Junior Dev to a confident and proficient software engineer.
- Participated in multiple workshops led by industry professionals on languages and libraries such as **RxJS**, **NodeJs** and **Reanimated**.
- Utilised **Luxon** for parsing and validating dates and times allowing for consistency throughout the app.
- Handled app state using **RxJS** enabling us to create pure stateless views.
- Worked with **GraphQL** to effectively handle data retrieval and manipulation.
- Used **Ava** and **Jest** to write and run unit tests within the codebase.

2019   **Flatiron School**   Full Stack Software Engineer Student

- Graduated in the top percent of the my class from an industry-leading tech bootcamp.
- Leveraged **Javascript** and **React** to create interactive frontend UI within many projects while studying.
- Gained a working knowledge of **SQL**, **Ruby** and **Ruby on Rails** during course projects.

PRIOR EXPERIENCE

2016 - 2019   **Student Universe - The Flight Centre Group**   Assistant Manager - Sales Consultant

- Led a sales teams of 6 to achieve 'Top tour sales Team' within the Flight Centre Travel Group.
- Collaborated with suppliers and management to bring new, relevant trips to the market which increased profitability.
- Achieved number one position for individual tour sales within The Flight Centre Travel Group.

2016   **ICan Training Solutions Ltd**   Salesforce Administrator

- Worked directly with management to customise the Salesforce system to suit their company needs.
- Worked remotely to developed a Salesforce system for monitoring and maintaining daily stock levels and needs of their clients.
- Automated daily ordering and monthly invoicing enable company efficiency.
- Ran training sessions in house and one on one on location with the company to implement the new system.

EDUCATION

2019	Full Stack Software Engineering Bootcamp	**Flatiron School, London**
2008 - 2011	Bachelor of Arts Degree with Honors in Musical Theatre	**University of Essex**
